DETAILED ACTION

Election/Restrictions

1. Claims 13, 14, 17-19, and 23 are allowable. The restriction requirement for having distinct species, as set forth in the Office action mailed on 4/24/2007, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 15, 16, 17-19, and 24-27, directed to non-elected species is no longer withdrawn from consideration because the claim(s) requires all the limitations of allowable claim 13. In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

2. Claims 13-27 are allowed.

Art Unit: 2629

3. The following is an examiner's statement of reasons for allowance: Claims 13-27 are allowable since certain key features of the claimed invention are not taught or fairly suggested by the prior art. In claim 13, "**wherein a plurality of first conductive lines among the conductive lines is respectively modulated relative to a plurality of second conductive lines among the conductive lines, and wherein the modulation frequency thereof is synchronized with a scanning frequency of the plurality of scanning lines**". The closest prior art of record however singularly or in combination fails to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ricardo L. Osorio whose telephone number is 571-272-7676.
